

Investor Fact Sheet

Based on semiannual report 2019/20

What is Ypsomed?

The Ypsomed Group is the leading developer and manufacturer of injection and infusion systems for self-medication and a renowned diabetes specialist with over 30 years' experience. As a leader in innovation and technology, Ypsomed is the preferred partner for pharmaceutical and biotech companies for the supply of pens, autoinjectors and infusion systems to administer liquid drugs. Ypsomed promotes and sells its product portfolio under the umbrella brands mylife™ Diabetescare directly to patients or through pharmacies and clinics and under YDS Ypsomed Delivery Systems business-to-business to pharmaceutical companies. Ypsomed has its headquarters in Burgdorf, Switzerland, and operates a global network of manufacturing sites, subsidiaries and distributors. The Ypsomed Group employs almost 1700 employees.

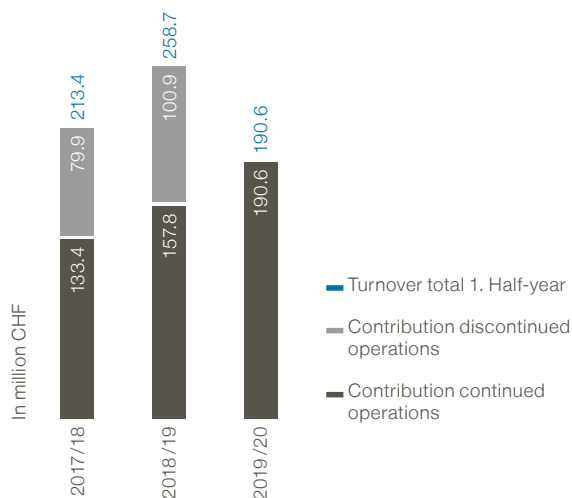

Financials

Due to currency effects, we are reducing our turnover projection for the 2019/20 business year from CHF 415 million to around CHF 400 million. At the EBIT level, we expect a result between CHF 21 million and CHF 25 million for the current financial year.

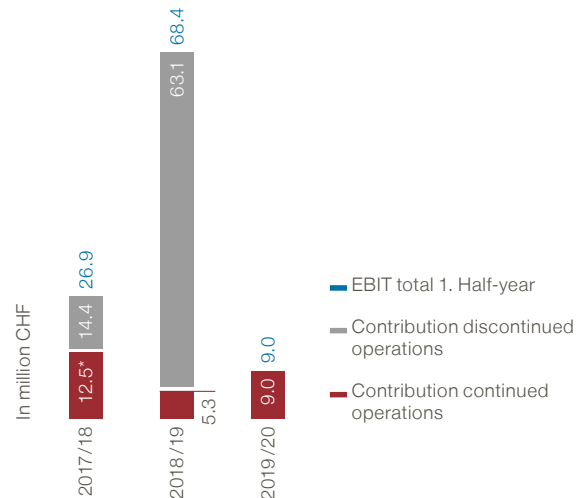

Dividend policy

Ypsomed pursues a continuous and sustainable dividend policy with a payout ratio of around 35%.

Development of turnover at group level

Development of EBIT at group level

* In 2017/18, continuing operations were not yet impacted by uncovered marketing and distribution structure costs due to the discontinuation of mylife™ OmniPod®.

The following research banks monitor the development of the Ypsomed Group:

Credit Suisse, Zurich: Christoph Gretler

Zürcher Kantonalbank, Zurich: Sibylle Bischofberger Frick

Vontobel AG, Zurich: Daniel Buchta

MIRABAUD Securities LLP: Daniel Jelovcan

Octavian AG, Zurich: Tanya Hansalik

Ypsomed Diabetes Care

With its mylife™ Diabetescare brand, Ypsomed operates successfully in the B2C business with products and services for people with diabetes mellitus. The product portfolio includes: insulin pumps, infusion sets, pen needles, blood glucose monitoring systems and other diabetes supplies. Products are distributed via Ypsomed's subsidiaries to hospitals, doctors, pharmacies and patients, and via distributors (pen needles).

Diabetes: A global disease with pandemic growth predicted in the coming 20 years. Currently diabetes is growing at approximately 9% p. a. Due to that fact Ypsomed is expanding its network of subsidiaries consequently with its outstanding product portfolio.

mylife™ product portfolio (selection)

Ypsomed Delivery Systems

Our pharmaceutical and biotech customers purchase injection systems and corresponding services under the YDS brand, Ypsomed Delivery Systems. They do this via the industry leader, as Ypsomed is the world's largest developer and manufacturer of pens and autoinjectors with which patients can administer their liquid medication subcutaneously themselves.

Trends for future drugs: Drugs are becoming more specific, e.g. in the treatment of autoimmune diseases. Instead of a generic drug (e.g. Humira®), a large number of new, very specific drugs come onto the market. New drugs for Alzheimer's disease, obesity and rare diseases are being developed. Cancer drugs are also becoming more specific. Efforts to develop active ingredients for subcutaneous injection open up opportunities for self-medication with auto- and patch injectors.
